EXPERIENCE

DataRobot – Boston, MA

Senior Software Engineer, June 2021 - Present
Software Engineer, October 2018 - June 2021

At DataRobot, I primarily work with React while working with stakeholders across the organization to rapidly prototype new features in both the main application as well as smaller custom built applications. I also have experience leading the development efforts for several projects and managing small teams.

Houghton Mifflin Harcourt – Boston, MA

Web Developer, June 2015 - September 2018

At Houghton Mifflin Harcourt, I had the privilege to work on a few different projects; Curious World v2, HMH Marketplace, and the HMHco Redesign. I was also a member of two different committees, the Boston office's Community Investment Council and the Make IT Happen task-force.

LuMind RDS Foundation– Marlborough, MA

Office & Database Manager, April 2014 - January 2015

During my tenure at LuMind, I oversaw and assured accuracy of donation processing through both online entities and by mail. I also worked with the Executive Director and Marketing Manager to support fundraising efforts, volunteer cultivation, special events, major donor prospecting, and marketing and communication efforts.
