

ASHLINN BRENNAN

FRONT-END ENGINEER

Profile

I am a seasoned front-end software engineer with nine years of hands-on experience in building and developing innovative web applications. My approach is deeply rooted in creativity, dedication, and motivation, always striving to deliver exceptional results. Beyond coding, I am driven by a profound passion for making a positive impact, using technology to contribute to a better world.

EXPERIENCE

SENIOR FRONT-END ENGINEER

Edge Delta

August 2022 - March 2024

- Converted web application from Angular to React through component migration and integration.
- Contributed to building out a reusable component library and implementing Storybook to help test and document the relevant components.
- Conducted candidate interviews and assisted in the hiring and onboarding process when expanding the front-end team.
- Utilized Cypress and React Testing Library to implement unit and e2e testing
- Improved error tracking by implementing Sentry
- Utilized tools such as FullStory, Datadog Real User Monitoring, and eventually Segment to track user journeys and application performance

SENIOR FRONT-END ENGINEER

DataRobot

October 2018 - July 2022

- Worked with various stakeholders to build out new features and data visualizations in the main application using React and D3.
- Played a key role in building four custom React applications that featured data visualizations, text parsing, and other metrics tracking.
- Ensured high code test coverage in all projects using Cypress, Jest, Jasmine, and React Testing Library
- Managed small teams of engineers and worked with different stakeholders to ensure smooth and timely feature delivery.

WEB DEVELOPER

Houghton Mifflin Harcourt

June 2015 - September 2018

- Built an AngularJS application that was a marketing tool and customer portal.
- Built an online marketplace for educational resources using Ruby and Javascript
- Helped with the redesign of the main e-commerce website and worked primarily with Javascript and jQuery.
