

ASHLINN BRENNAN

FRONT-END ENGINEER

Profile

I am a seasoned front-end software engineer with nine years of hands-on experience in building and developing innovative web applications. My approach is deeply rooted in creativity, dedication, and motivation, always striving to deliver exceptional results. Beyond coding, I am driven by a profound passion for making a positive impact, using technology to contribute to a better world.

EXPERIENCE

SENIOR FRONT-END ENGINEER

Edge Delta

August 2022 - March 2024

At Edge Delta, I helped lead the efforts to convert our Angular application to a fully React application. I worked with various stakeholders to build out new features and improve upon existing ones. I also conducted candidate interviews and contributed to expanding our engineering team from 4 to 8 members. Additionally, I played a key role in onboarding new team members and ensuring their smooth integration, effectively getting them up to speed.

SENIOR FRONT-END ENGINEER

DataRobot

October 2018 - July 2022

At DataRobot, I primarily worked with React while working with stakeholders across the organization to rapidly prototype new features in both the main application as well as smaller custom built applications. I also had experience leading the development efforts for several projects and managing small teams.

WEB DEVELOPER

Houghton Mifflin Harcourt

June 2015 - September 2018

At Houghton Mifflin Harcourt, I had the privilege to work on a few different projects; Curious World v2, HMH Marketplace, and the HMHco Redesign. I was also a member of two different committees, the Boston office's Community Investment Council and the Make IT Happen task-force.
